

## Wednesday, August 16<sup>th</sup>

### Longarm Quilting Machine Workshops

#### 2-hr. workshops:

LA23 ~ Nitty-Gritty Quilting

Dawn Cavanaugh

5:00 – 7:00 pm

2 hrs. - \$35

*Lecture/Demo*

(Skill Level: All)

Gazing at all the spectacular award-winning quilts in shows is inspiring and helps us strive to be better quilters. But let's face it – most of our customers are looking for designs that will make their quilt look good without breaking their budgets. Explore how to “listen” to what the quilter and quilt may be telling you and learn the right questions to ask. Dawn also shares lots of valuable tips for quilting those misbehaving quilts and some tried and true nitty-gritty tricks.

LA42 ~ Machine Quilters Business Manager: Level II

Mary Reinhardt

5:00 – 7:00 pm

2 hrs. - \$35

*Lecture/Demo*

(Skill Level: Intermediate)

Now that you own Machine Quilters Business Manager software and are comfortable with its day-to-day operation, this in-depth class will help you become a power user. You will explore the design of the program and how to maximize its Windows-based features...all new information that will take you to that next level of use. This class is product specific.

LA49 ~ Gammill Longarm Maintenance

Cathy Kleinschmidt

5:00 – 7:00 pm

2 hrs. - \$35

*Lecture/Demo*

(Skill Level: All)

This class emphasizes proper Gammill Longarm machine maintenance: cleaning, care, and operational techniques for the longarm quilter. You will learn how to deal with tension, timing, looping problems, and more. Cathy uses a common sense approach to help you succeed and takes the fear out of those basic adjustments that you may encounter with your machine.
